Asian Aesthetics

ABOUT US

Set up in Bangalore, India, in 2005, AA Studio Consulting is spearheaded by architects Chang-Hyun Kim and Seung-Hun Ham.

AA Studio provides design, management and research in the field of architecture, interiors, urbanism and interior turnkey based on the Asian cultural milieu. The organization has made its presence felt through its myriad ventures all over India.

Bearing formidable testimony of AA Studio's steadily rising growth curve is the increase of various hallmark projects undertaken by the firm. From corporation and residential projects to commercial and monumental ones, there is no architectural feat A.A. Studio is incapable of achieving.

Contributing to the graceful landscape and skyline of India, AA Studio's emphasis on customer satisfaction has witnessed the firm grow by leaps and bounds in just a matter of nine years.

Approaching based on cultural and environmental research,
we suggest space that contribute to human beings.
